Recognizing and managing these conflicts ensures that patient safety and ethical standards are upheld in healthcare practices.

3. Which of the following is an example?

- a) Medical training
- b) Policy changes
- c) Patient feedback
- d) Financial incentives

Correct Answer: d) Financial incentives

This can undermine patient trust and the ethical foundation of medical practice, making it essential to identify and mitigate such influences.

4. How can personal relationships impact decisions?

- a) Improve outcomes
- b) Enhance communication
- c) Foster trust
- d) Cause bias

Correct Answer: d) Cause bias

5. What is the role of transparency in conflicts?

- a) Complicates decisions
- b) Reduces accountability
- c) Increases confusion
- d) Builds trust

Correct Answer: d) Builds trust

6. What should a healthcare professional do?

- a) Hide interests
- b) Embrace bias
- c) Ignore conflicts
- d) Disclose conflicts

Correct Answer: d) Disclose conflicts

12. How can biases manifest in practice?

- a) Clear communication
- b) Objective decisions
- c) Equal treatment
- d) Favoritism

Correct Answer: d) Favoritism

- a) Enhances communication
- b) Creates ethical dilemmas
- c) Improves patient outcomes
- d) Strengthens bonds

Correct Answer: b) Creates ethical dilemmas

- a) Conflicts of interest
- b) Ethical decision-making
- c) Patient-centered care

16. How can conflicts impact patient care?

- a) Increase satisfaction
- b) Enhance quality
- c) Foster communication
- d) Compromise integrity

Correct Answer: d) Compromise integrity

17. What is a key aspect of ethical boundaries?

- a) Clarity
- b) Ambiguity
- c) Flexibility
- d) Complexity

Correct Answer: a) Clarity

- a) To gain insight
- b) To prioritize profit
- c) To confuse patients
- d) To hide conflicts

Correct Answer: a) To gain insight

22. What can influence healthcare decisions?

- a) Personal biases
- b) Objective information
- c) Scientific evidence
- d) Clear guidelines

Correct Answer: a) Personal biases
